

Europe & Metrology in Turkey, (EMIT) workshop: Safety of food & feed – requirements of an analytical laboratory

LEAFLET
Event code: EMIT S04-14

Adiyaman University
Adiyaman, Turkey
4 – 5 April, 2011

The mission of the JRC-IRMM is to promote a common and reliable European measurement system in support of EU policies.

The IPA TR080209 project is financed by the European Union.

S04 Trainers: J. McCourt, V. Gegevičius

Robust science for policy making

OUR MISSION

The mission of the Joint Research Centre is to provide customer-driven scientific and technical support for the conception, development, implementation and monitoring of European Union policies. As a service of the European Commission, the Joint Research Centre functions as a reference centre of science and technology for the Union. Close to the policy-making process, it serves the common interest of the Member States, while being independent of special interests, whether private or national.

EMIT workshop S04-14: Safety of food & feed – requirements of an analytical laboratory

Aim

To inform the main beneficiaries, universities, accredited laboratories other institutes and industry on the latest developments in food and feed safety measurements and to facilitate knowledge transfer on this subject to universities.

Who should attend?

Professors and researchers from universities and institutes, managers and practitioners, professional and non-governmental organisations.

Language

The workshop will be held in English with Turkish translation.

Practical information

Important dates

7 February 2011: Announcement of programme on the EMIT website

4 March 2011: Registration opens for participants

23 March 2011: Deadline for registration

4-5 April 2011: Workshop

Registration: This event will be open to the main beneficiaries, universities, accredited laboratories, other institutes and industry. Registration will be possible via the JRC Events Registration System (<https://jrc-meeting-registration.jrc.ec.europa.eu/>). A link to this via the EMIT website (<http://irmm.jrc.ec.europa.eu/Turkey>) will be provided.

Registration fee: Participation is free. Refreshments and lunches will be served.

For late registrations or supplementary information requests, please send an e-mail to JRC-IRMM-TURKEY-METROLOGY@ec.europa.eu

Topics tackled during the workshop

- Quality requirements for a food / feed analytical laboratory.
- Ensuring confidence in measurements: Part 1 - method development.
- Ensuring confidence in measurements: Part 2 - from method development to single-laboratory validation.
- Collaborative trial validated method to determine a marker - glyceroltriheptanoate (GTH) in animal by-products.
- Setting up a control strategy for feed safety: Part 1 - Detection of processed animal proteins in feed (EU projects STRATFEED and SAFEED-PAP) including the validation of a near infrared microscopic method.
- Setting up a control strategy for feed safety: Part 2 - EU project "Screening and identification methods for official control of banned antibiotics and growth promoters in feedingstuffs (SIMBAG-FEED)"
- Application of a Capillary Electrophoresis - Mass Spectrometry (CE-MS) method for fluoroquinolone antibiotic determination.
- Management system and accreditation in a food / feed analytical laboratory.
